

LORRAINE WAMBIRO

Nairobi, Kenya | 0112516719 | wambirulorraine@gmail.com | linkedin.com/in/lorraine-wambiru | lorraine-wambiru.vercel.app

PROFESSIONAL SUMMARY

User Experience Designer with a Computer Science foundation and a track record of designing engaging, brand-compliant digital experiences for global organisations, including the BBC and the Bill & Melinda Gates Foundation. Skilled in translating business and user requirements into user flows, wireframes, prototypes, and information architecture, and in facilitating cross-functional collaboration between business stakeholders, technology partners, and creative teams. Experienced defining and upholding UI guidelines and design systems within strict governance frameworks, with the technical fluency (React, Next.js, Supabase) to work confidently alongside engineering teams and keep design solutions technically feasible.

CORE SKILLS

Design & UX: Figma (Intermediate Certified), FigJam, Miro, Wireframing & Prototyping, User Flows & Interaction Design, Information Architecture, Design Systems & UI Guidelines, User Research, Usability, Adobe Photoshop & Illustrator, Adobe InDesign, Canva

Cross-Functional Delivery: Design Thinking Facilitation, Stakeholder Management & Sign-off, Cross-Functional & International Team Collaboration, Deadline-Driven Delivery, Attention to Detail

Technical Fluency: HTML/CSS, JavaScript/TypeScript, React, Next.js, Supabase, Git/GitHub

Data & Documentation: Data Visualization & Infographics, Advanced PowerPoint & Word, Excel

EXPERIENCE

- Design Consultant | Bill & Melinda Gates Foundation Africa

Mar 2026 - May 2026

 - Partnered with cross-functional, multi-organisation stakeholders (Gates Foundation, Portland Communications, DNR Studios) to translate campaign briefs into client-ready proposals, reports, and decks, meeting strict international NGO brand governance standards.
 - Defined and documented a complete visual identity system - colour, typography, and illustration language, with usage guidelines - for Africa Month 2026, applied consistently across social carousels, quote cards, and motion assets.
 - Translated complex public health data into clear, decision-ready infographics for World Immunization Week, World Malaria Day, and World Health Day, making dense statistics accessible to African audiences.
 - Managed multiple concurrent campaign briefs and bilingual (English/French) asset delivery, running iterative stakeholder feedback rounds to hit tight publication deadlines while keeping formatting and visual consistency across languages.
- User Experience Designer | BBC News Africa

Dec 2024 - Dec 2025

 - Owned UX design end-to-end on two major initiatives (WAFCON 2024 and Uganda Elections 2026) - from stakeholder requirements gathering through user flows, visual frameworks, and supporting design guidelines to final stakeholder sign-off.
 - Delivered high-volume, deadline-critical design and social content across major live news events (Sudan civil war, Uganda elections, WAFCON 2024, immigration policy coverage), coordinating with editorial and broadcast teams across 50+ African countries under non-negotiable time pressure.
 - Designed within a strict global governance and branding framework, adapting layouts and interfaces for diverse cultural and regional contexts while sustaining accurate, high-quality output at volume under constant deadline pressure.
- Graphic Design Intern | County Government of Nakuru

2023

 - Designed public sector communication materials across departments within strict institutional guidelines and formal approval processes, adapting layouts for both print and digital formats.

SELECTED PROJECTS

- Solara - UX/UI & Visual Systems Design

2024

 - Defined user flows, wireframes, and a full design system and information architecture for an AI-driven student wellbeing platform, translating research findings into a consistent, well-documented visual language.
- Public Pulse - Data Visualization & Dashboard Design

2023

 - Designed a real-time sentiment-analysis and tracking dashboard connecting citizens and government administrators - direct experience turning live data into clear, decision-ready visuals.
- North - Full-Stack Productivity App

2026

 - Built and shipped a full-stack productivity application (Next.js, Supabase, Google OAuth, Zustand) with a complete UI and colour system redesign - practical fluency for working closely with engineering and technology partners.

EDUCATION & CERTIFICATIONS

Bachelor of Science, Computer Science | Kabarak University

Certifications: Google UX Design Professional Certificate (in progress) | Figma Intermediate, Media Training Ltd (2025) | Software Engineering, Power Learn Project (2024) | Software Engineering, Moringa School (2021)
